## Red Reflet Guest Ranch

Located in Ten Sleep, a beautiful, quiet area of Wyoming, the Red Reflet (re-flay) is both a working ranch and luxurious Guest Ranch/Resort, that utilizes over 25,000 acres of land which range from 4,200' to 8,300' in elevation, and encompassing many spectacular landscapes. These landscapes transition from cacti desert to Aspen forests to deep limestone canyons fringed with giant Ponderosa Pines, to rolling sage covered hills, to multicolored rock layered canyons in the foothills of the Big Horn Mountains. But minutes away are the fascinating Castle Gardens and the lakes, streams, and trails of the 1,115,000 acre Big Horn National Forest, and nearly 200,000 acres of the Cloud Peak Wilderness with peaks to 13,175'. There is so much to explore and so many surprises, we are sure you will be delighted and enthralled.
